METRANS on the Move: Our Weekly Newsletter for Students

Welcome to this week's issue of METRANS on the Move, a student-run weekly transportation newsletter. This newsletter is a team effort to foster knowledge and opportunities related to transportation. As we welcome in the new year, we'd like to take a moment to thank each of our sponsors and subscribers for helping to create so many opportunities for students in our field. Please enjoy the events, scholarships, and job openings listed below, and be sure to reach out if you'd like to get further involved with our team during the new year

WTS - Los Angeles Inspiring the Next Generation of Female Leaders with Expert Guest from LA Metro

By Danielle Dirksen, BS Urban Studies and Planning, USC

On Tuesday, December 4th, five other USC students and I had the pleasure of attending a WTS-LA hosted luncheon featuring guest speaker Richard F. Clarke courtesy of generous sponsors. (Special thanks to photographer John Livzey for sponsoring me.) Clarke serves as Chief Program Management Officer (CPMO) for LA County's Metropolitan Transportation Authority, better known as Metro.

Regional Coalition Seeks to Establish Multi-State Carbon-Reduction Transportation Policy

A coalition of nine Northeastern and Mid-Atlantic states, along with the District of Columbia, aim to craft a regional "low-carbon" transportation policy proposal that caps and reduces transportation emissions, while also opening the door to other "complementary policies," such as coordinated infrastructure planning, land use planning improvements, plus the development of green banks and other innovative financing mechanisms.

Zoox Inc. Snags First California Permit

to Transport Passengers in Self-Driving Cars

Self-driving cars, once a futuristic projection, have already become old news in California. More than 60 companies currently hold permits to test autonomous vehicles, according to the state's Department of Motor Vehicles. But on Friday, California passed a new milestone when it allowed one self-driving car startup, Zoox Inc., to transport passengers for the first time.

The Year of the Scooter: The Good, the Bad, and the Road Ahead

At the beginning of 2018, cities began to look to the curb for solutions to plan for the future of mobility – better coordination of ride-hailing services using valuable curb space, and then ultimately, for autonomous vehicles. As it turns out, companies like Bird, Lime, and JUMP had other ideas about how the future of transportation would evolve. It is clear that 2018 was in fact, the year of the scooter, and more broadly the year of the meteoric rise of micro-mobility.

Get Involved

FREE 2019 Student Membership to the Intelligent Transportation Society (ITS) of California Accepting Registrations Now

Our goal is to facilitate partnership actions that unite technology and commercial product providers and public agencies for creating efficient transportation systems. These partnerships are industry-driven working to establish and maintain California as a world leader in ITS research, development and commercialization. We hope to add value through these efforts to our targeted constituencies that include transportation agencies, private industry, elected officials, and users, to improve public services and promote opportunities for private investment.

Please contact its-caadmin@itscalifornia.org with any questions or to confirm your membership.

Intelligent-Integrated IOT Conference and Workshop Friday, January 4, 2019 9 am - 4 pm Pacific USC - Fertitta Hall Room Lower Level

Intelligent-Integrated IOT Conference and Workshop is a conference focused on the future of the Internet of Things (IoT). It is hosted by the Intelligent IoT Integrator (I3) Consortium to discuss the realization of open and forward looking IoT efforts.

The I3 Consortium is consortium that includes companies, government entities, and academic institutions that are working together to create an opensource framework that allows communities of independent IoT device owners to work together..

For more information, please email manager@i3-iot.net.

TransportationCamp DC 2019 Saturday, January 12, 2019 Founders Hall, George Mason University - Arlington Campus, Arlington, Virginia

Each year, TransportationCamp DC brings together a sell-out crowd of 400 thinkers and doers in the fields of transportation and technology. It's not your traditional conference. In addition to talks and presentations from big names in the field, the heart of TransportationCamp is sessions and activities led by attendees themselves. Held on the Saturday before Transportation Research Board Annual Meeting, it is a high-energy, exciting day of presentations, panels, and networking opportunities — all created and led by the diverse innovators who attend.

Tickets are \$50; students are \$35. Price includes breakfast and lunch.

For more information, stay tuned to [@transpocamp](https://twitter.com/transpocamp) (and the [#tranpso19](https://twitter.com/tranpso19) hashtag).

Graduate Women in Science Present:
Across the STEMverse Industry Career Conference
Saturday, February 9, 2019 9 am - 4 pm Pacific
USC Town and Gown

Across the STEMverse is an industry career conference that strives to give scientists in the LA-wide area the opportunity to meet, seek advice, and to network with experienced professionals working outside of academia. It also aims to connect individuals from different fields, schools, and backgrounds to foster collaboration.

The all-day event will include breakfast/check-in, panel discussions, lunch, roundtable discussions, and networking. The conference will host professionals from a variety of STEM careers, including but not limited to entrepreneurship, regulatory science, patent law, management consulting, gaming, technology transfer, research & development, science communication, and data science.

This event is FREE for dues paying GWIS LA Members. To join the chapter, [click here](#) or visit the link to register below.

2019 American Planning Association Los Angeles Student Symposium:
Resiliency in Planing
Saturday, February 9, 2019 9:30 am - 5 pm Pacific
Cal Poly Pomona - Building 7

Students and planning professionals from the greater Los Angeles region are invited to Cal Poly Pomona to attend the 13th Annual American Planning Association Los Angeles Student Symposium, hosted by Cal Poly Pomona's College of Architecture and Environmental Design, on Saturday, February 9, 2019.

The topic this year is "resiliency in planning" as it relates to housing, public participation, sustainability, and transportation. Attendees will have the opportunity to engage with other students and professionals in these important and relevant topics during workshop sessions, panel discussions, poster board presentations, and a professional mixer. Stay tuned for details!

This event is FREE for students. For more information, [click here](#) or visit the link to register below.

Center for Advancing Research on Transportation Emissions, Energy and Health:
Transportation, Air Quality, and Health Symposium
February 18-20, 2019
Omni Austin Hotel at Southpark, Austin, Texas

Join us for a one-of-a-kind symposium on transportation, air quality, and health. We will discuss research, policy, and emerging issues in transportation emissions, energy, air quality, exposures, and health. This is a unique interdisciplinary event, bringing together experts from both the transportation and health worlds.

Keynote speakers will be Daniel S. Greenbaum from the Health Effects Institute and Neil Pedersen from the Transportation Research Board, leaders in the field of health and transportation.

The keynote session will feature each speaker's unique perspective - one on producing trusted science for cleaner air and improved health worldwide, and the other on direction and leadership of the world's largest transportation and practice community. The speakers will discuss research pathways for addressing the emerging area of health and transportation. These insights will set the stage for a fruitful symposium and help us work across the disciplines to make a global impact.

For more information, contact Mary Cearly at m-cearley@tti.tamu.edu.

Scholarships & Academic Opportunities

Call for Submissions to New Journal:
Transportation Research Interdisciplinary Perspectives
Now Accepting Submissions

A new, open access journal, Transportation Research Interdisciplinary Perspectives (TRIP) is an online journal and addition to the Transportation Research family of journals. The Transportation Research family of journals forms the most cohesive and comprehensive reference of current research in transportation science. TRIP is an addition to the family which accepts papers on any topic within the scope of any of Parts A–F. It is an interdisciplinary journal concerned with any and all social science aspects of transportation.

The journal is the destination for rapid communication from acceptance to publication of quality research on transportation and publishes research articles, case studies, research notes, tutorials, and opinion pieces. It particularly welcomes articles reporting negative or controversial results and new (and less mature) ideas. Articles are relevant to both academics and practitioners and are the results of anonymous reviews by at least two referees chosen by the editor for their specialist knowledge.

The journal is accepting submissions [here](#) or visit the homepage linked below to learn more.

Massive Open Online Course (MOOC) on Sustainable Urban Freight Open December 2018 - September 2019

We are happy to announce the re-run of the successful Sustainable Urban Freight Transport MOOC on edX as of 4th December 2018. This time the MOOC is presented as a self-paced course, students and professionals can access the free course till September 2019.

The MOOC is the result of a collaboration between 8 partners of the global COE-SUFS network. It provides a unique cross-cultural introduction to city logistics, as experienced around the world (Netherlands, Japan, India, UK, Australia, South-Africa and Sweden).

For more information, contact Tharsis Teoh at t.g.h.teoh@tudelft.nl or click the link below.

USC Sol Price Center for Social Innovation: Southern California Symposium Application Deadline: Monday, December 31, 2018 Symposium: March - May 2019

The Southern California Symposium, the Price Center for Social Innovation's executive education program, is an exceptional opportunity for learning, collaboration and professional growth over a short time frame. A concentrated and intense experience that will not wreak havoc on your calendar, the Symposium starts the third week of March and is finished by the first week of May. The time in between will prove unforgettable.

Apply before Friday, December 14th to waive the application fee. Additional fee waivers may be available.

For more information, check out the video at the link below or register [here](#).

The Second Annual Irvine Symposium on Emerging Research in Transportation (ISERT 2019) January 18-19, 2019 The Beckman Center, Irvine, CA

This annual symposium is focused on the idea-exchange among researchers and practitioners on emerging research and applications in transportation. The schedule will include podium presentations, poster sessions, as well as innovative idea-exchange sessions. As the symposium follows the Transportation Research Board meeting, researchers traveling to the USA from around the world, and specifically from the Pacific Rim countries may find the symposium a convenient stop for focused academic exchange on selected topics.

The intended participants are academics, researchers, graduate students and industry professionals in transportation who stay abreast with the latest research developments in the field. Early registration accepted until Dec. 15 is \$200 (\$100 for students). Standard registration is \$250 (\$125 for students).

For more information, click the link before or register [here](#).

6th International Conference on Women's Issues in Transportation Abstract Deadline: Wednesday, January 30, 2019 September 10-13, 2019 The Beckman Center, Irvine, CA

TRB is sponsoring the 6th International Conference on Women's Issues in Transportation (WIIT 2019) on September 10-13, 2019 in Irvine, California. This conference explores women's perspectives, challenges, achievements, and opportunities with respect to travel and transportation.

This conference also provides an update on the progress and challenges in relation to women and mobility; explores how gender equality practices in transportation are increasing business and economics development; exchanges ideas on how public agencies can incorporate good gender equality policies and practices with approaches to oversee efforts and measure performance; and examines methods to address safety and security of women who are employed with or using transportation systems.

For more information, click the link before or register [here](#).

USC Good Neighbors Grant Applications
Grant Applications due Friday, February 8, 2019
The Beckman Center, Irvine, CA

The USC Good Neighbors 2019 grant application cycle is underway! Proposed programs must incorporate established university-community partnerships and support USC's university-community initiatives. Programs that serve the local communities surrounding the university's University Park or Health Sciences campuses are eligible.

We will have two in-person information sessions: Health Sciences Campus: Tuesday, January 8, 2019 from 2:00 p.m. to 3:00 p.m. (PST) in Hoffman Medical Research Center (HMR) first floor Hastings Auditorium Room 100 (1989 Zonal Ave, Los Angeles, CA 90089) & University Park Campus: Wednesday, January 16, 2019 from 11:30 a.m. to 12:30 p.m. (PST) in Engemann Student Health Center (ESH) First Floor Conference Room (1031 W. 34th St, Los Angeles, CA 90089)

For more information, click the link before or register for information sessions [here](#).

Eno Center for Transportation: Future Leaders Development Conference
Application Deadline: Friday, February 8, 2019
June 2-6, 2019
Washington, DC

Each year, the Eno Future Leaders Development Conference (LDC) gives 20 of the nation's top graduate students in transportation a first-hand look at how national transportation policies are developed. Students apply to the program early in the year, and those selected as "Eno Fellows" come to Washington, DC for a week in the spring of meetings with federal officials and leaders of business and non-profit organizations.

The Eno Future Leaders Development Conference is designed for students in transportation-related programs, including engineering, planning, public policy, public administration, economics, management, and law. Students interested in any mode of transportation are encouraged to apply. Candidates must be Graduate-level students pursuing a masters or doctoral degree.

For more information, contact Erin Shumate at (202) 879-4703 or eshumate@enotrans.org.

New York University's Smart Cities Postdoctoral Fellowship
Application Deadline: Tuesday, February 15, 2019

New York University's CUSP, WIRELESS, CCS, VIDA and C2SMART invite applications for the inaugural cohort of NYU's Smart Cities Postdoctoral Fellows. We seek outstanding applicants with a strong record of interdisciplinary work in developing and applying concepts and methods from science, technology, computing, engineering and applied mathematics in the service of urban communities across the globe. We envision hiring up to five fellows to start in Fall 2019. A doctoral degree in an applicable field is required.

NYU values equity, diversity, and inclusion and especially encourages candidates from historically underrepresented groups to apply. Qualifications must include: doctoral degree in a relevant field, and an active agenda of research and publication with a strong focus on smart cities, or with the potential for direct application to smart cities research; as well as a record of transitioning research into practice, ideally in collaboration with city stakeholders, is desirable.

Young Researchers' Conference 2019
Saturday, May 26, 2019
IIT Bombay, India

WCTRS-Y is a one-day conference which will be held on the first day of the World Conference on Transport Research (WCTR), at the Indian Institute of Technology Bombay, India. Dedicated to the next generation of transport academics, professionals and experts, the WCTR-Y presents the work and achievements of PhD students, post-doctoral fellows and young researchers, giving them the opportunity to play a major role in the scientific progress, and to discuss and interchange on new developments and ideas in transportation.

In addition to the presentation of a limited number of selected high-quality conference papers, WCTR-Y will also include special sessions targeted towards the academic and professional development of young researchers during which they will be able to interact with and learn from their peers and seniors.

UITP Global Public Transportation Summit
June 9-12, 2019
Stockholm, Sweden

With almost 130 years of history behind it, the UITP Global Public Transport Summit proudly remains the world's biggest event dedicated to sustainable mobility. Covering all urban and regional transport modes across the globe, the Summit combines a diverse program of leading Congress sessions and an outstanding Exhibition full of the latest innovations, solutions and products. The theme for the 2019 Global Public Transport Summit is 'The Art of Public Transport'.

This event takes place every two years, with the congress showcasing innovative developments and good practices, whilst the exhibition provides an overview of the latest trends in products related to public transport. The Poster session is the main format used to include in our program areas related to innovation in research, R&I and pilot projects within the public Transport Sector. Also, as a participant you will

be considered as speaker and benefit from the discounted rates and access to all events (conditions apply).

For more information, contact Hilia Boris Iglesia at hilia.boris.iglesia@uitp.org.

**California Transportation Foundation Scholarships 2018-2019
For High School, Undergraduate, and Graduate Students**

The California Transportation Foundation (CTF) had awarded \$1.1 million in scholarships since its founding in 1988. CTF scholarships are awarded competitively and are available to students at all levels. Several scholarships target specific populations of importance to donors. These requirements often relate to specific Caltrans Districts, functional areas, school districts, or other concerns.

CTF invites interested students to apply to more than 35 scholarships, some of which have specific deadlines and application windows. To qualify for CTF scholarships, recipients must be intent on a career in transportation, attend a school in California, and be U.S. citizens, permanent residents or documented, international students.
