METRANS on the Move: Our Weekly Newsletter for Students

Welcome to this week's issue of METRANS on the Move, a student-run weekly transportation newsletter. This newsletter is a team effort to foster knowledge and opportunities related to transportation. We have many exciting METRANS events in store for this semester; be sure to RSVP by clicking the links below! If you have suggestions for content or opportunities - events, scholarships, internships, jobs, and more - please feel free to reach out to any member of our student staff (listed at the bottom of each issue). Please enjoy this week's newsletter and click the button below to subscribe!

Abhinaw Priyadershi
Graduate Research Assistant
priyader@usc.edu

Perspectives from Fullbright Recipient and USC Engineering Management Graduate Mohamed Hassan By Drew Quinn, USC MPL 2019

For five years Mohamed Hassan traveled between Egypt and Qatar as a Junior Field Engineer for Schlumberger: Oilfield Services. Hassan managed the planning, executing, and closing of wireline reservoir characterization projects and others endeavors to manage the quantitative representation of active oil and gas reservoirs, both on- and offshore. In 2017, Hassan left the oil fields of the Middle East to accept a Fulbright Scholarship to attend USC and perform Freight and Sustainability research with Professor and METRANS Director Genevieve Giuliano.

Meet the WTS-OC 2018 Scholarship Winners: Annaleigh Yahata M.A. in Urban and Regional Planning, Transportation Policy and Planning, UCLA

Annaleigh is currently in her first year of graduate study at UCLA, and holds two Bachelor's Degrees in Urban Studies and Geography from UC Berkeley. She received the Departmental Cartography Award for the class of 2015 from UC Berkeley. She produced original maps on the export and visitor economies of Singapore for one of her final projects, and a map on affordable housing along the International Boulevard Corridor in Oakland for the other.

TransitScreen, MobilityData Form Open Transit Data Platform

Washington, DC-based software company TransitScreen and nonprofit MobilityData announced they are collaborating on an open data platform that will share global public transit and mobility information. The partners have acquired TransitFeeds, the mobility data commons that serves 6 million data requests a year, to build the new OpenMobilityData platform.

Los Angeles Passed a Historic Transit Tax. Why Isn't It Working?

In November 2016, Los Angeles County made history. A whopping 72 percent of voters approved Measure M, a sales tax measure set to generate \$120 billion over 40 years to expand rail, rapid bus, and bike networks. With it, the L.A. Metropolitan Transportation Authority promised to "ease traffic congestion" and "transform transportation" across the region. But that promise is likely to remain unmet, judging by history.

Get Involved

Los Angeles METRO NextGen Bus Study 2019 Public Workshops running between January 8 and February 6, 2019

Come to any public workshop between January 8 and February 6 and help us redesign the bus system. Meet with Metro staff, learn about the study and share your thoughts on how to improve the bus system, including bus routes, frequencies, day and times of operation. Stop in at any time during the workshop.

*Everyone will receive a free TAP card, while supplies last. We'll also be raffling off other Metro transit passes. Join us for your chance to win!

For questions, please contact Robert Calix at NextGen@metro.net.

METRANS Spring 2019 Speakers Series: Innovation on Job Accessibility with General Transit Feed Specification (GTFS) Data Wednesday, January 23, 2019 12:00 pm - 1:30 pm Pacific USC - Lewis Hall RGL 101

This presentation analyzes job access in Los Angeles County via public transportation based on travel time, via transit, to jobs. We use open source General Transit Feed System (GTFS) data to model the transit network and interface with a variety of computing tools -including JavaScript, ArcPy for ArcGIS, and statistical packages - to measure the number of jobs accessible from these tracts, leveraging data to allow us to simulate job access with different transit investments.

Distinguished Speakers:

Dr. Gary Painter, Professor and Director of the Sol Price Center of Social Innovation, University of Southern California
Madison Swayne, Ph.D. candidate in the Urban Planning and Development Program at the Price School of Public Policy

Lunch will be provided. To RSVP, contact Adyl Abdykali at abdykali@usc.edu.

USC Women in Computing (WIC) Present: TripAdvisor Speaker Panel, Tour, and Networking Friday, January 25, 2019 12:30 pm - 2:00 pm Pacific TripAdvisor's El Segundo Office, 801 Parkview Drive North, Suite 200 El Segundo, CA 90245

TripAdvisor is offering a unique event for USC's women in tech to learn more about the company and see what it would be like to work at TripAdvisor. The 2 hour event will include a tour, panel, and networking lunch, with TripAdvisor employees, including USC Alumni!

This event requires that each student use their own means of transportation to get to and from the event. Parking details will be emailed to you once your registration is confirmed. The deadline to register and submit a \$10 refundable deposit is Wednesday, January 23rd, 2019

To learn more about USC WIC events, visit their social media page [here](#), and click below to register for the event.

**UC Davis ITS Seminar - One Nevada Transportation Plan:
Long Range Statewide Transportation Planning in a Rapidly Changing Environment
Friday, January 25, 2019 1:40 pm - 3:00 pm Pacific
UC Davis - 1605 Tilia, Room 1103, West Village**

Nevada DOT recently completed the One Nevada Transportation Plan. This new statewide long range transportation plan provides a framework of consistent goals for Nevada's transportation system. It meets the federal performance based planning requirements, provides a new foundation for transparent decision making for transportation investments, while allowing flexibility to accommodate changing travel patterns and technologies. The plan is consistent with the state's Metropolitan Planning Organizations goals and plans and the development process included extensive public and citizen participation. More than a plan, the One Nevada concept is a continuous improvement process including measuring performance relative to goals and adjusting priorities accordingly.

NDOT is now working towards enhancing the process including identification of measures for goals that do not have readily available data and beginning to use prioritization tools and strategies across the Department and eventually with partner agencies. While the One Nevada Transportation Plan is an over-arching planning framework, some of the unique challenges of statewide planning will also be covered, such as the challenges of planning in a time of emerging technologies, unprecedented growth and uncertain funding.

Distinguished Speaker:

Sandra Rosenberg, Assistant Director of Planning, Nevada Department of Transportation

Check out the UC Davis ITS website for other upcoming events, and click below for more information.

**Deloitte Technology Consulting + USC Diversity Mentorship
Applications due Friday January 25, 2019 by 11:59PM**

Deloitte Technology Consulting is looking for students with diverse backgrounds who are interested in enhancing their professional skills and learning more about consulting through a new, year-long diversity and inclusion focused mentorship program.

In the 2019 Diversity Mentorship Program, students will attend events and workshops that will help them grow professionally, as well as be paired with a Deloitte consultant who will guide them along their unique journeys. The purpose of this program is to expose mentees to the world of technology consulting and further develop professional skills while fostering meaningful relationships between students and their Deloitte mentors.

Program eligibility:

- Overall GPA: 3.0 and above
- Year: Freshman, Sophomore (preferred), Junior
- General interest in consulting, technology, and/or professional development
- Commitment to 4 events and 4 phone calls throughout 2019 calendar year

To apply, fill out the survey at the link below and email a copy of your resume to USCmentorship@deloitte.com.

**INSPIRE University Transportation Center Presents:
Assistive Intelligence (AI): Intelligent Data Analytics Algorithms to Assist Human Experts
Wednesday, January 30, 2019 9 am - 11 am Pacific**

Artificial Intelligence, particularly deep learning, has recently received increasing attention in many applications, such as image classification, speech recognition, and computer games. The success of deep learning algorithms requires big annotated datasets for training, gradient-based optimization algorithms, and powerful computational resources. In the case of civil infrastructure inspection, we can collect big data from different imaging sensors such as color, thermal, and hyperspectral cameras. Three issues are encountered in this application. First, it is tedious and expensive to let human experts annotate the datasets to train deep learning algorithms. Second, the offline trained deep learning algorithm may not be able to adapt to new civil infrastructures. Third and lastly, the trained deep learning algorithm works like a black box on new data without the domain knowledge from human experts.

In this project, we investigate intelligent data analytics algorithms with human experts in the loop, called Assistive Intelligence (AI). Using bridge inspection as a case study, we aim to find regions-of-interest (e.g., joints with damages) over long video sequences. The data analytics algorithm is initially trained from a small set of data. Given the dataset of a new bridge, bridge experts only need to annotate a few region-of-interest examples as the seed; our algorithm will retrieve corresponding examples in the rest of videos. Human experts can also return on incorrectly retrieved samples to the data analytics algorithm for further refinement. Thus, while the data analytics algorithm can assist humans in an efficient way, bridge experts can leverage their domain knowledge in the adaptation of the computational tool in different scenarios.

Distinguished Speaker:

Dr. Zhaozhend Yin, Associate Professor and St. Clair Fellow, Department of Computer Science, Missouri University of Science and Technology

**METRANS Spring 2012 Speakers Series:
LA Metro is Changing the Mobility Landscape - Learn What's Next!
Wednesday, January 30, 2019 12 pm - 1 pm Pacific**

Los Angeles is facing an unprecedented transformational opportunity. With competing mobility options, changing land use patterns and shift individual preferences for how to move about the city, Metro's role in communities is more important than ever. Hear about the multi-mode approach that Metro is undertaking to provide Angelenos with more mobility opportunities.

Distinguished Speaker:

Laura Cornejo, Deputy Executive Officer (DEO) of Countywide Planning for LA Metro

Lunch will be served. To RSVP, email Adyl Abdykalikov at abdykali@usc.edu.

**The National Academies of Sciences, Engineering, and Medicine:
Workshop and Webcast on Frontiers of Big Data, Modeling, and Simulation in Urban Sustainability
January 30-31, 2019 9 am - 5:00 pm Pacific
Keck Center, Room 100, 500 Fifth St., NW, Washington, D.C. 20001**

Data, modeling, and simulations are critical to planning for and maintaining sustainable communities. We invite you to attend a workshop a webcast on January 30-31, 2018 that will bring together the emerging interdisciplinary network of practitioners, business leaders, academic and policy makers using data for urban sustainability.

Participants on Day 2 of the workshop will have a choice between three mini-workshops on the following topics: Air and Water Quality, Transportation and Physical Infrastructure, or Sustainable Inclusive Communities. These mini-workshops are a key aspect of the program identify areas where cities and the research community can partner to advance urban sustainability.

Click [here](#) to check out a preliminary agenda of the two-day event, and visit the link below to register.

**METRANS 2019 Mentor Program
Apply by Friday, February 1, 2019**

Each year METRANS matches students and recent graduates with professionals who provide practical career guidance to those interested considering a career in transportation or a transportation related field. Our program offers the opportunity to gain perspective on the transportation profession and to receive advice and counsel from a professional and while the relationship is defined as lasting through the year, many of our students and mentors remain in contact much longer and we have had some incredible success stories.

We encourage you to join us by completing and returning the short application form attached; mentors and mentees are selected based on common career and academic interests. We will begin matching mentors and mentees February 1, and encourage you to submit your application as soon as possible for the best chance that your ideal mentor is still available.

Please return the application form below, a copy of your CV/resume, and your personal statement by email to Victoria Deguzman victoriv@usc.edu.

**UC Davis ITS Seminar:
Autonomous Vehicles in California
Friday, February 1, 2019 1:40 pm - 3:00 pm Pacific
UC Davis - 1605 Tilia, Room 1103, West Village**

The transportation industry is in the middle of a transformation with the advent of autonomous, or self-driving, vehicles. Much of this is happening in California, as automotive manufacturers, supplier companies, and technology firms all work to develop this advancement. This work is high technical, involving advanced sensors, high-powered computing, and artificial intelligence, and machine learning. In addition there are social, economic, and regulatory aspects to this technology. Dr. Soriano will speak to the autonomous vehicle activities occurring throughout the state and the issues involved.

Distinguished Speaker:

Bernard C. Soriano, Deputy Director of California Director of Motor Vehicles

Check out the [UC Davis ITS website](#) for other upcoming events, and click below for more information.

**METRANS Spring 2019 Speakers Series:
Lunch with Transportation Professional Steven Mateer
Wednesday, February 6, 2019 12 pm - 1 pm Pacific
USC - VPD 203**

Join us for lunch and a lively discussion. Learn how to navigate the exciting field of transportation planning - course work, skill sets, work environments, career paths, and more!

Steven Mateer, a seasoned transportation planning professional, will share his professional experiences learned over the past 14 years to help you plan and make the best career decisions possible. Steven's accomplishments at Metro include funding plans and strategies for several major highway and transit projects as well as leading the adoption of the Metro First/Last Mile Strategic Plan.

Distinguished Speaker:

Steven Mateer, Transportation Superintendent for the City of Glendora

To RSVP, contact Adyl Abdykali at abdykali@usc.edu.

More Info

**UC Davis ITS Seminar - Cashless / Wireless / Paperless / Driverless:
Public Transit in an On-Demand World**

**Friday, February 8, 2019 1:40 pm - 3:00 pm Pacific
UC Davis - 1605 Tilia, Room 1103, West Village**

Technology, entrepreneurship and changing customer expectations are disrupting traditional models of mobility. In this evolving environment, public transportation systems are helping lead change through service innovations such as transit route redesign, TNC partnerships, microtransit, automated transit shuttles, and integrated payment platforms, to name just a few. In these and other ways, transit agencies are stepping-up as the backbone of an integrated mobility ecosystem.

The discussion will focus on ways public transit agencies are poised to perform the role of regional mobility managers and help integrate the full array of local mobility services into an efficient, coordinated system to provide an enhanced level of mobility and prosperity in our communities.

Distinguished Speaker:

Arthur L. Guzzetti, Vice President of Mobility Initiatives and Public Policy, American Public Transportation Association

Check out the UC Davis ITS website for other upcoming events, and click below for more information.

METRANS PSR has a limited number of sponsored spots for complimentary attendance to this event. Please email Victoria Deguzman at victoriv@price.usc.edu to secure your spot.

**Graduate Women in Science Present:
Across the STEMverse Industry Career Conference
Saturday, February 9, 2019 9 am - 4 pm Pacific
USC Town and Gown**

Across the STEMverse is an industry career conference that strives to give scientists in the LA-wide area the opportunity to meet, seek advice and to network with experienced professionals working outside of academia. It also aims to connect individuals from different fields, schools and backgrounds to foster collaboration.

The all-day event will include breakfast/check-in, panel discussions, lunch, roundtable discussions, and networking. The conference will host professionals from a variety of STEM careers, including but not limited to entrepreneurship, regulatory science, patent law, management consulting, gaming, technology transfer, research & development, science communication, and data science.

This event is FREE for dues paying GWIS LA Members. To join the chapter, click [here](#) or visit the link to register below.

**2019 American Planning Association Los Angeles Student Symposium:
Resiliency in Planning**

**Saturday, February 9, 2019 9:30 am - 5 pm Pacific
Cal Poly Pomona - Building 7**

Students and planning professionals from the greater Los Angeles region are invited to Cal Poly Pomona to attend the 13th Annual American Planning Association Los Angeles Student Symposium, hosted by Cal Poly Pomona's College of Architecture and Environmental Design, on Saturday, February 9, 2019.

The topic this year is "resiliency in planning" as it relates to housing, public participation, sustainability, and transportation. Attendees will have the opportunity to engage with other students and professionals in these important and relevant topics during workshop sessions, panel discussions, poster board presentations, and a professional mixer. Stay tuned for details!

This event is FREE for students. For more information, click [here](#) or visit the link to register below.

**METRANS PSR Field Trip:
Port of Long Beach Harbor Tour
Saturday, February 9, 2019 10:00 am Pacific
Long Beach, CA**

The Port of Long Beach Environmental Planning, Master Planning, and Transportation Planning Divisions are taking us on a cruise! Port staff will join us to provide narration and to answer questions about Port projects. We will see Port operations, infrastructure projects, such as the Gerald Desmond Bridge Replacement and the electrified and automated Middle Harbor terminal, and will discuss the variety of groundbreaking green programs the Port has implemented to reduce environmental impacts from port-related operations.

There are limited spots available for this event. RSVP by emailing Adyl Abdykolikov at abdykali@usc.edu.

TRB Webinar: Contracting Commuter Rail Services Tuesday, February 12, 2019 11:00 am - 12:30 pm Pacific

TRB will conduct a webinar on Tuesday, February 12, 2019 from 2:00 PM to 3:30 PM ET that features research from the Transit Cooperative Research Program (TCRP)'s Research Report 200: Contracting Commuter Rail Services, Volume 2: Commuter Rail System Profiles.

This webinar will provide an introduction to the guidebook in Volume 1 and an overview of the commuter rail systems in North America profiled in Volume 2. The presenters will discuss the various approaches that exist for providing commuter rail. They will also identify factors that influence these different approaches. and This webinar will discuss a decision tree analysis to assess different approaches for providing commuter rail or to evaluate changes to existing commuter rail services.

Distinguished Presenters:

Linda Cherrington, Texas A&M Transportation Institute
James Stoetzel, Finger Lakes Rail Consulting Group
Bruce Horowitz, ESH Consult

Log into MyTRB.org to view registration information.

Center for Advancing Research on Transportation Emissions, Energy and Health: Transportation, Air Quality, and Health Symposium February 18-20, 2019 Omni Austin Hotel at Southpark, Austin, Texas

Join us for a one-of-a-kind symposium on transportation, air quality, and health. We will discuss research, policy, and emerging issues in transportation emissions, energy, air quality, exposures, and health. This is a unique interdisciplinary event, bringing together experts from both the transportation and health worlds.

Keynote speakers will be Daniel S. Greenbaum from the Health Effects Institute and Neil Pedersen from the Transportation Research Board, leaders in the field of health and transportation.

The keynote session will feature each speaker's unique perspective - one on producing trusted science for cleaner air and improved health worldwide, and the other on direction and leadership of the world's largest transportation and practice community. The speakers will discuss research pathways for addressing the emerging area of health and transportation. These insights will set the stage for a fruitful symposium and help us work across the disciplines to make a global impact.

For more information, contact Mary Cearly at m-cearley@tti.tamu.edu.

METRANS PSR Field Trip: Gerald Desmond Bridge Tour Thursday, February 21, 2019 10:30 am Pacific Long Beach, CA

Join us for a guided bus and excursion trip to the Gerald Desmond Bridge Replacement Project. This project is a joint effort of Caltrans, Metropolitan Port of Long Beach, and US Department of Transportation. Students will have the opportunity to learn from professionals working on the project, as well as gain a better understanding of the history and benefits of one of the country's most vital trade infrastructure projects.

Lunch is included at this event! There are limited spots, so RSVP now!

To RSVP, email Adyl Abdykolikov at abdykali@usc.edu.

METRANS PSR has a limited number of sponsored spots for complimentary attendance to this event. Please email Victoria Deguzman at victori@price.usc.edu to secure your spot.

12th Annual UCLA ITS Downtown Forum: From Public Transit to Public Mobility March 1, 2019 9 am - 5 pm Pacific Japanese American National Museum - Aratani Central Hall

100 N. Central Ave., Los Angeles, CA 90012

The 12th UCLA Institute of Transportation Studies Downtown Forum grapples with the public sector's response to the dual trends of emerging new mobility services and declining public transit ridership.

What does the increasing role of private mobility options in cities mean for transportation agencies, public transit providers, cities, and the traveling public? Should innovation be encouraged, quashed, or managed? Many regions in California are making big investments in public transit to create a viable alternative to driving; are these burgeoning new services a threat or opportunity for these investments?

The 12th Annual Downtown Forum will explore implementation of the strategies discussed at the October 2018 Arrowhead Symposium, a day in-depth examination of what's happening in urban mobility amidst an inundation of new options, to how public agencies are adapting to accommodate, manage, and incorporate, and compete with new options while continuing to serve the public interest.

Click the link below to register.

3 Revolutions Policy Conference: Shared - Autonomous - Electric
March 18-19, 2019 9:00 am - 5:30 pm Pacific
UC Davis Conference Center, 550 Alumni Ln. Davis, CA 95616

The 3 Revolution Policy Conference is the only major conference that addresses policy solutions for vehicle automation, shared mobility, and electrification. Last year's 3 Revolutions Policy Conference sold out, with more than 350 attendees.

This year, we're thinking bigger. Not just about crowd size (although we did reserve a slightly larger room!), but also about impact. We're convening everyone with a stake in transportation—representatives of local, state, and national governments, automakers, shared mobility companies, academics, and community advocates—to build a network committed to real policy outcomes.

We invite you to join us in building a path to the future. We need leaders from all sectors to collaborate in designing policies and practices in the best interest of society. Innovation in transportation is sweeping our cities and societies, and we must be prepared. Governments need ongoing and consistent support to hasten the adoption of electrification and shared mobility strategies and to direct automation toward the public interest. Together, we can help.

For questions, contact 3Rev@ucdavis.edu.

METRANS, UCI, and PSR Field Trip:
Anaheim Regional Transportation Inter-modal Center
Saturday, March 23, 2019 11:30 am - 2:30 pm Pacific
Anaheim, CA

Join us for a behind-the-scenes guided tour of the Anaheim Regional Transportation Inter-modal Center! Better known as ARTIC, this station provides rail, bus, taxi, and other services for daily commuters in Southern California. With an iconic design and stunning lighting, ARTIC is also a popular location for filming and photography.

Students are invited on an optional roundtrip MetroLink trip from LA Union Station, with a 10:50 am departure. Complimentary train tickets are in limited supply. Lunch is provided thanks to our generous cosponsors, MetroLink and KOA.

Email Adyl Abdykolikov at abdykali@usc.edu to RSVP for this event.

Scholarships & Academic Opportunities

6th International Conference on Women's Issues in Transportation
Abstract Deadline: Wednesday, January 30, 2019
September 10-13, 2019
The Beckman Center, Irvine, CA

TRB is sponsoring the 6th International Conference on Women's Issues in Transportation (WIIT 2019) on September 10-13, 2019 in Irvine, California. This conference explores women's perspectives, challenges, achievements, and opportunities with respect to travel and transportation.

This conference also provides an update on the progress and challenges in relation to women and mobility; explores how gender equality practices in transportation are increasing business and economic development; exchanges ideas on how public agencies can incorporate good gender equality policies and practices with approaches to oversee efforts and measure performance; and examines methods to address the safety and security of women who are employed with or using transportation systems.

For more information, click the link before or register [here](#).

Eno Center for Transportation: Future Leaders Development Conference **Application Deadline: Friday, February 8, 2019** **June 2-6, 2019** **Washington, DC**

Each year, the Eno Future Leaders Development Conference (LDC) gives 20 of the nation's top graduate students in transportation a first hand look at how national transportation policies are developed. Students apply to the program early in the year, and those selected as "Eno Fellows" come to Washington, DC for a week in the spring of meetings with federal officials and leaders of business and non-profit organizations.

The Eno Future Leaders Development Conference is designed for students in transportation-related programs, including engineering, planning, public policy, public administration, economics, management, and law. Students interested in any mode of transportation are encouraged to apply. Candidates must be Graduate-level students pursuing a masters or doctoral degree.

For more information, contact Erin Shumate at (202) 879-4703 or eshumate@enotrans.org.

New York University's Smart Cities Postdoctoral Fellowship **Application Deadline: Tuesday, February 15, 2019**

New York University's CUSP, WIRELESS, CCS, VIDA and C2SMART invite applications for the inaugural cohort of NYU's Smart Cities Postdoctoral Fellows. We seek outstanding applicants with a strong record of interdisciplinary work in developing and applying concepts and methods from science, technology, computing, engineering and applied mathematics in the service of urban communities across the globe. We envision hiring up to five fellows to start in Fall 2019. A doctoral degree in an applicable field is required.

NYU values equity, diversity, and inclusion and especially encourages candidates from historically underrepresented groups to apply. Qualifications must include: doctoral degree in a relevant field, and an active agenda of research and publication with a strong focus on smart cities, or with the potential for direct application to smart cities research; as well as a record of transitioning research into practice, ideally in collaboration with city stakeholders, is desirable.

2018-2019 Airport Cooperative Research Program (ACRP): University Design Competition for Addressing Airport Needs **Submission Deadline: Monday, April 29, 2019**

The Airport Cooperative Research Program (ACRP), a program of the Transportation Research Board (TRB) of the National Academies of Sciences, Engineering, and Medicine, is sponsoring a national competition for universities that engages students in addressing issues related to airports and the National Airspace System. The Competition builds upon the former FAA Design Competition for Universities which has now become an ACRP program funded by the FAA. The Competition is managed for the ACRP by the **Virginia Space Grant Consortium** of Hampton, Va.

This Competition challenges individuals and teams of undergraduate and/or graduate students working with faculty advisors at U.S. colleges and universities to consider innovative approaches related to airport issues. Students can win cash prizes for their winning innovative design solutions. First place winners present their work at a national award ceremony. Full details are provided in the competition guidelines.

This Competition focuses on design solutions in the following broad areas: Airport Operation and Maintenance, Runway Safety/Runway Incursions/ Runway Excursions, Airport Environmental Interactions, and Airport Management and Planning. Some specific challenge areas defined in the Technical Design Challenges section of the guidelines. Students are not limited to the suggested topical areas listed. They are free to propose design solutions based on other topics that fit the four broad challenge areas.

For questions, email ACRP@odu.edu or click [here](#) for more information.

Young Researchers' Conference 2019 Saturday, May 26, 2019 IIT Bombay, India

WCTRS-Y is a one-day conference which will be held on the first day of the World Conference on Transport Research (WCTR), at the Indian Institute of Technology Bombay, India. Dedicated to the next generation of transport academics, professionals and experts, the WCTR-Y presents the work and achievements of PhD students, post-doctoral fellows and young researchers, giving them the opportunity to play a major role in the scientific progress, and to discuss and interchange on new developments and ideas in transportation.

In addition to the presentation of a limited number of selected high-quality conference papers, WCTR-Y will also include special sessions targeted towards the academic and professional development of young researchers during which they will be able to interact with and learn from their peers and seniors.

UITP Global Public Transportation Summit June 9-12, 2019 Stockholm, Sweden

With almost 130 years of history behind it, the UITP Global Public Transport Summit proudly remains the world's biggest event dedicated to sustainable mobility. Covering all urban and regional transport modes across the globe, the Summit combines a diverse program of leading Congress sessions and an outstanding Exhibition full of the latest innovations, solutions and products. The theme for the 2019 Global Public Transport Summit is 'The Art of Public Transport'.

This event takes place every two years, with the congress showcasing innovative developments and good practices, whilst the exhibition provides an overview of the latest trends in products related to public transport. The Poster session is the main format used to include in our program areas related to innovation in research, R&I and pilot projects within the public Transport Sector. Also, as a participant you will be considered as speaker and benefit from the discounted rates and access to all events (conditions apply).

For more information, contact Hilia Boris Iglesia at hilia.boris.iglesia@uitp.org.

A limited number of Student Scholarships for Ph.D. students, and Volunteer Positions for Graduate Students are available. Both positions waive the student registration fee.

56th IMCL Conference on A Healthy City for All June 17-21, 2019 Sentinel Hotel, Portland, OR

We are delighted to welcome delegates to the 56th International Making Cities Livable Conference to Portland, and thrilled by the conference theme, "A Healthy City for ALL." This is an effort close to the heart of all Portlanders as we introduce strategies to make our neighborhood healthier places to live, as we expand our programming to continue to produce housing units and to compassionately address homelessness.

This Conference will be a landmark event, with an unprecedented gathering of world-renowned experts in planning, urban design, public health, architecture, social sciences, civic government, and allied fields.

Interested students should send their resume, a short statement (250 words) why the conference is of interest to them, and to which program they are applying (Scholarship or Volunteer) before March 1 to suzanne.lennard@livablecities.org.

**Massive Open Online Course (MOOC) on Sustainable Urban Freight
Open through September 2019**

We are happy to announce the re-run of the successful Sustainable Urban Freight Transport MOOC on edX as of 4th December 2018. This time the MOOC is presented as a self-paced course, students and professionals can access the free course till September 2019.

The MOOC is the result of a collaboration between 8 partners of the global COE-SUFS network. It provides a unique cross-cultural introduction to city logistics, as experienced around the world (Netherlands, Japan, India, UK, Australia, South-Africa and Sweden).

For more information, contact Tharsis Teoh at t.g.h.teoh@tudelft.nl or click the link below.
