METRANS on the Move: Our Weekly Newsletter for Students

Price and Viterbi Students visiting the Port of Long Beach as part of Professor Rajeez Seetharam's Transportation Planning and Management Course.

Welcome to this week's issue of METRANS on the Move! This newsletter is a team effort to foster knowledge and opportunities related to transportation. If you have suggestions for content – events, scholarships, jobs, and more – that you'd like to see included, just reach out to our Editor-in-Chief Lauren Mullarkey-Williams at mullarke@usc.edu or any of our student staff listed at the end of the newsletter. Enjoy this week's issue, and click the button below to subscribe!

Mt. Saint Mary's Emerald Archer Examines the Advancement of Women in the Workplace

By: Katrina Soriano

USC and the USC Bedrosian Center teamed up on August 11, 2019 to bring Dr. Emerald Archer to USC to address the challenges facing the women in the workplace. Archer, the director for the Center for the Advancement of Women in Mount Saint Mary's University, shared that she "has dedicated her career to studying questions related to gender equity and women's representation in non-traditional domains such as the United States military," and offered her findings and insights to a diverse group of attendees including active and retired faculty, staff, students, and alumni.

Commuters Don't Stop Driving to Work Unless You Take Away Free Parking

Congress recently reestablished parity for commuter tax benefits, granting people who take transit into work as well as those who drive in and park at the office the same \$255 a month in 2016. With that basic fairness intact, the question becomes whether or not the rule will change rush-hour travel choices in any substantive way. Given the bump in transit benefits, you might reasonably expect fewer employees to drive in alone, but the evidence suggests you'd be wrong.

New Street Safety Plan for Students Offers Lessons for All Cities

Schoolchildren face a maze of uncertainty on their way to class every day in Dar es Salaam, the capital of Tanzania. With road networks constantly expanding in one of Africa's fastest-growing cities, the 90 percent of kids who walk to school need to navigate across streets without pedestrian crossings—and sometimes without sidewalks.

Next on the List for Data Startups: Managing Curb Space

Andrew Small and Laura Bliss report on an increasingly active curb space: data platforms providing real-time information on how curbs are being used. They include Open Curbs, a tool from Sidewalk Labs spinoff Coord, "which pins the locations of wheelchair cuts, fire hydrants, bus stops, and other physical assets that define the curb to digital maps, available to anyone who's interested in using them."

ENO Transportation Center Webinar: A Preventable Crisis - The Economic and Human Costs of a Hudson River Rail Tunnel Shutdown Tuesday, April 16, 2019 1 pm - 2 pm Pacific

Join us as we discuss this recent report from the Regional Plan Association, which details the impact of a partial Hudson River Tunnel shutdown without the alternative that a new, fully-funded Gateway Program would provide. More than 200,000 trips are taken through the existing Hudson River tunnel on a daily basis in as many as 450 trains. Rail travel below the Hudson between New Jersey and New York is already unreliable due to the tunnel's aging structure and the extensive damage sustained during Superstorm Sandy; the tunnel will soon reach the end of its useful life.

A partial shutdown of the tunnels would lead to dramatically expanded commute and travel times coupled with increased congestion on public transportation, which would further burden already congested roadways and airports. This will lead to increased business and consumer costs, job loss, home devaluation, and health risks.

Distinguished Speakers:

Paul Lewis, Vice President of Policy and Finance, Eno Center for Transportation
Chris Jones, Senior Vice President and Chief Planner, Regional Plan Association

UCLA Institute of Transportation Studies Spring 2019 Lecture Series on Resilient, New Mobility Multiple Dates | UCLA Campus

The UCLA Institute of Transportation Studies holds a number of events throughout the year, including lecture series, annual forum and symposium. This section will also feature events from our partners, including the Pacific Southwest Region 9 University Transportation Center, the UCLA Lewis Center for Regional Policy Studies, the UCLA Luskin Center for Innovation and the UCLA Smart Grid Energy Research Center, among others.

Upcoming Events:

Unintended Consequences of Autonomous Vehicles

Adam Millard-Ball, UC Santa Cruz
April 17, 2019 | 9:30 a.m. to 10:45 a.m.
2343 Public Affairs Building

Towards Resilient Infrastructure for a Changing Climate and Future

Mikhail Chester, Arizona State University
May 1, 2019 | 12 p.m.
Mong Learning Center (Engineering VI 180)

Model Checking in a Time of Simulation

Timothy Brathwaite, Lyft
May 8, 2019 | 12 p.m.
Mong Learning Center (Engineering VI 180)

InterActions LA: Inspiring Quality Transit Neighborhoods
Wednesday, April 18 2019 8 am - 2 pm Pacific
The California Endowment
1000 Alameda St. Los Angeles, CA 90012

This year's "InterActionsLA" from the UCLA Lewis Center for Regional Policy Studies will discuss the opportunities to enhance neighborhoods given the sweeping \$120 billion investment to expand Los Angeles' transportation system. While "transportation transformation" headlines abound, the on-ground picture is different: Change to the necessary complementary elements in the neighborhoods around these is harder to see and come by.

We will explore how today's opportunity can address decades-old inequities among people and places throughout the region. Based on existing research, we know that new transit stations alone will not improve lives. A suite of complementary approaches—station area design, neighborhood connectivity and amenities, and progressive land use policies—are required to move toward a more inclusive Los Angeles region.

TRB Webinar: Evaluation of Superheavy Load Movement on Flexible Pavements
Tuesday, April 23 2019 11:00 am - 12:30 pm Pacific

This webinar will examine procedures for analyzing the impacts of superheavy load (SHL) movement on flexible pavements developed under a U.S. Federal Highway Administration-sponsored research project*. SHL hauling units are much larger and heavier than standard trucks and may involve gross vehicle weights in excess of a few million pounds, which at times requires specialized trailers and components with nonstandard spacing between the tires and axles.

The presenters will discuss analysis methods -- such as subgrade bearing failure analysis, sloped pavement shoulder failure analysis, buried utility risk analysis, localized shear failure analysis, deflection-based service limit analysis, and cost allocation analysis -- to determine whether a pavement is structurally adequate to sustain SHL movement. They also will describe the SuperPACK tool developed to conduct this analysis.

Distinguished Speakers:

Elie Hajj, University of Nevada, Reno
 Raj Siddharthan, University of Nevada, Reno
 Hadi Nabizadeh, University of Nevada, Reno
 Seyed-Farzan Kazemi, University of Nevada, Reno

For registration questions, contact Reggie Gillum at RGillum@nas.edu.

UCLA Luskin Summit 2019: Livable L.A.

Wednesday, April 24, 2019 8:30 am - 1:00 pm Pacific
Luskin Conference Center
425 Westwood Plaza, Los Angeles, CA 90095

This research-informed, cross-sector conversation about the major issues facing the Los Angeles region will focus not on problems but on solutions.

Session topics include:

Dealing with Disruption: From Public Transit to Public Mobility
 Preparing to Thrive in a Hotter Los Angeles
 Why is Access to Safe, Affordable Water Still a Challenge in Los Angeles
 Growing Inequality in Los Angeles – Jobs and Housing
 Census 2020 and Its Impact on Los Angeles
 Can Decarceration Make Los Angeles Safer?
 State of Land-Use Development and Sustainable Communities Strategies
 Unveiling of the 2019 Los Angeles County Quality of Life Index

The UCLA Luskin Summit will precede the 49th Conference of the Urban Affairs Association, which begins April 24 and continues until April 27 at the Luskin Conference Center. The conference will bring together more than 1,000 multidisciplinary and international scholars to discuss urban-focused research, with plenary and special sessions featuring local and global experts on urban issues.

Registration for the event is currently closed. Please contact tborrero@luskin.ucla.edu to be added to the waitlist.

**National Center for Sustainable Transportation Webinar:
 Incorporating Long-Distance Travel into Transportation Planning in the United States**
Wednesday, April 24, 2019 10:00 am - 11:15 am Pacific

Long-distance intercity travel has vexed transportation planners and modelers for a long time. The last comprehensive one-year long-distance national travel survey in the United States was conducted in 1995, while the 2001 National Household Transportation Survey (NHTS) and the 2013 California Household Travel Survey included large supplemental surveys covering 3-months and 8-weeks respectively. Long-distance travel is undertaken by surface and air modes on a global scale beyond the typical boundaries of a regional or state travel demand model. Yet long-distance travel represents a significant proportion of passengers miles in the US (possibly 30%) and is growing in aggregate and as a proportion. Long-distance travel demands attention from planners and the first step is advancing the ways we measure it.

Distinguished Speaker:

Lis Aultman-Hall, Vermont Associate Director, National Center for Sustainable Transportation

City of Tomorrow Symposium
Tuesday, May 23, 2019
The Container Yard
Los Angeles, CA

Join the conversation with city leaders, start-ups, disruptors, academia and businesses from around the globe to explore how together we can find solutions to improve mobility, equity, privacy and more to create the City of Tomorrow.

This event is hosted by Ford Motor Company. It will be a day-long convening of practitioners, academics, students, and start-ups who work in the mobility and city planning space, held downtown Los Angeles on May 23rd, and will be offered completely free of charge. The event will consist of engaging dialogue, interactive experiences, networking with leaders in the field, and more. The team hoping to invite academics, practitioners, and students – all who might be interested in the mobility of the future.

If interested in joining the event or knowing more, email Victoria Deguzman at VictoriV@price.usc.edu.

**UCLA Luskin 12th Annual Martin Wachs Distinguished Lecture:
 Designing the 30-Minute City**
Thursday, May 16 2019 5:00 pm - 7:30 pm Pacific
UCLA Public Affairs Building
337 Charles E Young Dr E, Los Angeles, CA 90095

The 30-minute isochrone has long defined people's use of cities — from ancient times through the trams era to modern times. Networks and land use co-evolve with technology subject to the constraints of available time. There are opportunities (low-hanging fruit) to use design to reduce the costs of travel and thus increase access for relatively little monetary outlay. This talk discusses both the measurement of accessibility, why it matters, and how it might affect traveler behavior, institutional behavior, and public policy. Looking at data from rail and tram development in Sydney from the 1800s and Australia today, implications about the effects of accessibility will be described.

Distinguished Speaker:

David Levinson, Professor in the School of Civil Engineering at the University of Sydney and adjunct faculty in the Department of Civil, Environmental, and Geo-Engineering at the University of Minnesota

**ENO Transportation Center Webinar:
 "Rules of the Road" for Personal Transportation Devices (E-scooters, Segways, hoverboards, and more)**
Tuesday, May 21, 2019 1:00 pm - 1:30 pm Pacific

A new Mineta Transportation Institute (MTI) report explores the "rules of the road" around the use of emerging "personal transportation devices." Also known as "micromobility," the number and use of these devices has exploded in recent years, highlighted by the arrival of electric scooters in cities over the past couple of years. The report explores to the degree states, cities, and college campuses are or are not regulating these new devices. This webinar with the authors will review their findings and discuss recommendations from their recent report.

Distinguished Speakers:

Brianne Eby, Policy Analyst, Eno Center for Transportation
 Kevin Fang, Assistant Professor, Sonoma State University
 Asha Weinstein Agrawal, Professor, San Jose State University

METRANS PSR has a limited number of sponsored spots for complimentary attendance to this event. Please email Victoria Deguzman at victoriv@price.usc.edu to secure your spot.

**UCLA Institute of Transportation Studies:
 Transportation Camp Los Angeles 2019
 Saturday, July 13, 2019 9 am - 5 pm Pacific
 UCLA Luskin School of Public Affairs
 337 Charles E Young Drive East, Los Angeles, CA 90095**

TransportationCamp LA is an open venue for sharing and learning about the region's transportation issues and successes, open to advocates, professionals, community members, and everyone passionate about mobility in Los Angeles and Southern California. TransportationCamp LA aims to be an open, forward-thinking event that brings together people of all facets of the transportation world.

TransportationCamp is not a formal conference - rather, as an unconference, it is driven entirely by attendees' interests and experiences. At TransportationCamp, there is no set agenda prior to the event. Sessions are determined at the beginning of the day and are drawn from proposals and ideas that attendees submit. A session can be any format: a presentation, an open discussion, a demonstration, a panel, or even a group exercise or game.

TransportationCamp covers urban transportation issues in all their forms, including economic, social, public health, and environmental impacts. Session topics in the previous TransportationCamp LA ranged from "Measuring Great Streets," to "Beyond Cars: Suburban Mobility," to "Equity & Inclusion in the Innovation Economy" and change every year to reflect the latest research and questions of the moment. Have thoughts on the proliferation of scooters and shared mobility devices across LA, or the Metro's Twenty-Eight by '28 transportation projects? Get your own session started just with an oversized Post-It note.

Scholarships & Academic Opportunities

**2018-2019 Airport Cooperative Research Program (ACRP):
 University Design Competition for Addressing Airport Needs
 Submission Deadline: Monday, April 29, 2019**

The Airport Cooperative Research Program (ACRP), a program of the Transportation Research Board (TRB) of the National Academies of Sciences, Engineering, and Medicine, is sponsoring a national competition for universities that engages students in addressing issues relating to airports and the National Airspace System. The Competition builds upon the former FAA Design Competition for Universities which has now become an ACRP program funded by the FAA. The Competition is managed for the ACRP by the Virginia Space Grant Consortium of Hampton, Va.

This Competition challenges individuals and teams of undergraduate and/or graduate students working with faculty advisors at U.S. colleges and universities to consider innovative approaches related to airport issues. Students can win cash prizes for their winning innovative design solutions. First place winners present their work at a national award ceremony. Full details are provided in the competition guidelines.

This Competition focuses on design solutions in the following broad areas: Airport Operation and Maintenance, Runway Safety/Runway Incursions/ Runway Excursions, Airport Environmental Interactions, and Airport Management and Planning. Some specific challenge areas are defined in the Technical Design Challenges section of the guidelines. Students are not limited to the suggested topical areas listed. They are free to propose design solutions based on other topics that fit the four broad challenge areas.

For questions, email ACRP@odu.edu or click [here](#) for more information.

2019 I-NUF:

8th METRANS International Urban Freight Conference

Abstracts Due: Wednesday, May 1, 2019

October 16-18, 2019

Hotel Maya, Long Beach, CA

The purpose of I-NUF is to provide a forum for sharing emerging, multi-disciplinary research on all aspect of freight in metropolitan areas. We are soliciting abstracts for conference presentations as well as papers.

We are soliciting abstracts for both conference presentations and papers on the following topics: Local/last mile pickup and delivery, Trade nodes and hubs - ports, airports, distribution hubs, Freight modes - trucking, rail, water, Urban modeling and planning, New technology, Changing consumption, production and spatial organization, and Best practices.

Sustainability is a cross-cutting theme. We welcome papers on environmental impacts or mitigation strategies in all thematic areas. We also welcome proposals for special sessions.

Please submit abstracts [here](#) and send proposals for special sessions to [Alix Traver at alix.traver@csulb.edu](mailto:alix.traver@csulb.edu).

2019 Transportation Research Forum:

60th Diamond Jubilee

May 2-3, 2019

1001 16th St. NW Washington, D.C. 20036

Join transportation practitioners, regulators and researchers from the DC region and across the nation as they gather in Washington, D.C. May 2 -3, 2019. Attendees will learn the best in current transportation research, applied practices and innovations which are impacting public sector policy initiatives, enhancing existing markets, and creating new market opportunities to meet current demands and future expectations in the transportation arena.

Through a combination of plenary sessions, notable speakers, research presentations and policy discussions, transportation professionals from a cross-section of modes and sectors will come together to share ideas, explore current research and policy issues, and build networks. Field trips before and after the conference program will take you behind the scenes to several DC-based transportation systems and facilities.

Railway Association of Southern California: 2019 Annual Scholarships

Applications due: May 8, 2019

Since 1996, the Railway Association of Southern California (RASC) has been dedicated to promoting the diverse professions within the railroad industry and sponsoring fellowship among railroad professionals in the Southern California area. The RASC will be awarding three \$2,500 scholarships to undergraduate students and three \$2,500 scholarships to graduate students for a total of six.

The minimum criteria for the scholarships are: Undergrad or graduate students enrolled in Fall 2019 at a public or private education institution in Southern California in a degree that may lead to a career in rail transportation; minimum 3.0 GPA; interest in a profession in the rail transportation industry such as engineering, planning, or operations.

Application forms may be downloaded from the Railway Association website at <http://railwayassociation.org/scholarships/>.

IBTTA Foundation Scholarship Program

Applications due: May 9, 2019

IIT Bombay, India

The International Bridge, Tunnel, and Turnpike Association (IBTTA) Foundation has established a scholarship program to assist current undergraduate students pursuing a degree in one of the eligible fields listed below.

Applicants to the IBTTA Scholarship Program must be current undergraduate college students who have completed at least two full semesters of undergraduate coursework at the time of application (30 credit equivalent) and who are pursuing a degree in one of the following fields: Engineering, City and Regional Planning, Construction Management, Public Policy, or Public Administration. Applicants must also be planning to enroll in full-time undergraduate study at an accredited four-year college or university for the entire upcoming academic year and have a minimum grade point average of 2.5 on a 4.0 scale (or its equivalent). International students may apply.

To learn more about the eligibility, awards, and how to apply, click [here](#).

UITP Global Public Transportation Summit

**June 9-12, 2019
Stockholm, Sweden**

With almost 130 years of history behind it, the UITP Global Public Transport Summit proudly remains the world's biggest event dedicated to sustainable mobility. Covering all urban and regional transport modes across the globe, the Summit combines a diverse program of leading Congress sessions and an outstanding Exhibition full of the latest innovations, solutions and products. The theme for the 2019 Global Public Transport Summit is 'The Art of Public Transport'.

This event takes place every two years, with the congress showcasing innovative developments and good practices, whilst the exhibition provides an overview of the latest trends in products related to public transport. The Poster session is the main format used to include in our program areas related to innovation in research, R&I and pilot projects within the public Transport Sector. Also, as a participant you will be considered as speaker and benefit from the discounted rates and access to all events (conditions apply).

For more information, contact Hilia Boris Iglesia at hilia.boris.iglesia@uitp.org.

A limited number of Student Scholarships for Ph.D. students, and Volunteer Positions for Graduate Students are available. Both positions waive the student registration fee.

56th IMCL Conference on A Healthy City for All

**June 17-21, 2019
Sentinel Hotel, Portland, OR**

We are delighted to welcome delegates to the 56th International Making Cities Livable Conference to Portland, and thrilled by the conference theme, "A Healthy City for ALL." This is an effort close to the heart of all Portlanders as we introduce strategies to make our neighborhoods healthier places to live, as we expand our programming to continue to produce housing units and to compassionately address homelessness.

This Conference will be a landmark event, with an unprecedented gathering of world-renowned experts in planning, urban design, public health, architecture, social sciences, civic government, and allied fields.

Interested students should send their resume, a short statement (250 words) why the conference is of interest to them, and to which program they are applying (Scholarship or Volunteer) before March 1 to suzanne.lennard@livablecities.org.
