Mitigating Urban Freight through Effective Management of Truck Chassis: Lessons from the Pool of Pools

Wednesday, November 16th, 12:00 PM to 13:30 PM

USC Main Campus, RGL 100
Presented by Thomas O’Brien, Executive Director, Center for International Trade and Transportation (CITT) and Associate Director of CSULB Programs, METRANS

RSVP

A Green Path for Shared Mobility?
Wednesday, November 16th, 11:00 AM to 12:20 PM
UCLA Lewis Center for Regional Policy Studies

Kristen Pawling - How sharing can improve mobility and the environment

California faces serious air quality challenges, aggressive climate change goals, and, in many places, inequitable mobility options. There is a plethora of shared mobility services available, many of which claim to reduce the need for single-occupant vehicle mobility. Hear about what we already know about shared mobility and the environment, what we don’t know, and what key questions we should prioritize asking.

Marcel Porras - Promoting bikeshare and carshare: The view from Los Angeles

Public officials and planners are much more supportive of carshare and especially
Bikeshare programs than they are of TNCs. But both carshare and bikeshare, particularly the latter, require substantial public subsidy. What is the business model for these services, and how are they faring? What are the operational challenges, and can we expect that they will be resolved over time?

CTF Scholarship Opportunities
Caroline Alain-Rodman Memorial Scholarship
Applications Due Nov. 18th, 2016

The desired goal is for the applicant to pursue her/his educational studies and acquire an understanding of how public policy and government affairs can affect and shape Federal, State, County or City transportation issues and decision-making processes to improve, enhance or create more effective transportation programs, infrastructures and design. Please find the application form here.

Bimla Rhinehart Memorial Scholarship
Applications Due May 1st, 2017

Eligibility Criteria: University Students Who will Be entering their senior year in the 2017 Summer or Fall terms and are enrolled in business, planning, engineering, or related major at a university in California intending to pursue a career in transportation. Applicant must be a U.S. Citizen or a Registered International Student. Please find the application form here.

Calling Young Researchers: Apply for the 2017 Lee Schipper Memorial Scholarship
Applications Due November 23rd

The Schipper family and EMBARQ, the sustainable urban mobility initiative WRI
Ross Center for Sustainable Cities, are pleased to announce that applications are now open for the 2017 Lee Schipper Memorial Scholarship for Sustainable Transport and Energy Efficiency. The Scholarship will award up to two extraordinary candidates a maximum of US$ 10,000 each to advance transformative research in efficient and sustainable transport.

For more information, visit leeschipper.embarq.org. If you have any questions or concerns, please contact cities@wri.org.

Upcoming Events & Opportunities

Transforming Urban Transport – The Role of Political Leadership
Tuesday, November 15th, 9:00 AM to 10:00 AM Pacific Time

Presenters:

- Diane Davis, Project Director at Transforming Urban Transport & Chair, Urban Planning and Design, Harvard Graduate School of Design
- Lily Song, Senior Research Associate, Transforming Urban Transport & Lecturer, Harvard Graduate School of Design

In this panel, Professor Diane Davis and Senior Researcher Lily Song will share findings from TUT-POL case studies of New York's urban streets initiatives, Stockholm's adoption of congestion pricing, and Seoul's combined highway demolition, bus system overhaul, and urban regeneration while discussing political conditions and processes explaining implementation successes. In particular, the presentation will highlight the use of data and evidence (e.g. GPS data, polling data, voter trends), public engagement and communication (e.g. public outreach campaigns, voter referendum, working committees/public task forces), and organizational and policy management in promoting implementation of urban transport policies intended to challenge car-centrism and change mode-share while also fostering mobility and environmental aims.

For more information and to register for the webinar, click here.
T3e Webinar: Solar-powered Automated Transit Networks: The Future of Sustainable Urban Transportation
Thursday, November 17, 2016, 1:00 PM - 2:00 PM ET

The webinar will present the concept of solar-powered automated transit networks (ATNs). It will discuss why solar-powered ATNs makes sense as the preferable alternative mode of transit for dense, urban areas; what unique advantages they have; and how they can integrate into existing urban environments.

For more information and to register for the webinar, click here.

APA Los Angeles Leadership Program

The APA Los Angeles Leadership Program is a new professional development program created to help promising, career-oriented planners prepare for leadership roles in their departments and organizations. Participants will meet together six times over six months with classes designed to help them improve their skills for positions of increasing responsibility while also growing their effectiveness in their current roles.

Program participants will gain knowledge and skills in leadership, organizational dynamics, communication, and career planning to help them identify and achieve their professional goals while equipping them with tools to make even stronger contributions to their organizations. Read more here.

ICF Seeks Transportation Analyst

To support our dynamic growth and expanding client base, ICF is seeking an Analyst to support the Transportation portfolio of our Climate, Energy Efficiency, and Transportation line of business. The Analyst will be responsible for supporting ICF managers in analyzing critical issues regarding the implementation of transportation policies and planning practices, sustainable transportation initiatives, transportation
operations, travel demand management programs, environmental management, infrastructure preservation, and transportation technologies. There will also be opportunities to work with the Transportation Research Board, Federal Highway Administration, and state, regional, and local transportation agencies.

The Analyst should have a background or interest in transportation policy or planning, excellent and proactive written and oral communication skills, strong proficiency using Microsoft Office products, especially Microsoft Word and Excel, ability to learn new online software products, and strong interpersonal skills. Demonstrated strength in conducting qualitative analyses and understanding of transportation planning and project development is desirable. The candidate will be expected to work as a part of teams to execute tasks that support the delivery of accurate, timely, and high-quality products and services.

For more information and to submit an application, click here.
The Airport Cooperative Research Program (ACRP) is sponsoring a national competition for universities that engages students in addressing issues relating to airports and the National Airspace System. This Competition challenges individuals and teams of undergraduate and/or graduate students working with faculty advisors to consider innovative approaches related to these challenges. Submitters should design innovative solutions that focus on addressing airport issues and constraints that would enhance the management, safety, capacity, and efficiency of the nation’s airports.

Competition goals:

1. Raise awareness of the benefits of the ACRP and the importance of airports and the FAA to the National Airspace System infrastructure.
2. Increase the involvement of the academic community in ACRP and addressing airport operations and infrastructure issues and needs.
3. Engage students at U.S. colleges and universities in the conceptualization of applications, systems, and equipment capable of addressing related challenges in a robust, reliable, and comprehensive manner.
4. Encourage undergraduate and graduate students at U.S. colleges and universities to contribute innovative ideas and solutions to issues facing airports and the National Airspace System.
5. Provide a framework and incentives for quality educational experiences for university students.
6. Develop an awareness of and an interest in airports as vital and interesting areas for engineering and technology careers.

The Competition website is the participant’s source for complete and up-to-date information: [vsgc.odu.edu/ACRPDesignCompetition](vsgc.odu.edu/ACRPDesignCompetition)

For more information about the competition, click [here](vsgc.odu.edu/ACRPDesignCompetition).
The ELTP program is designed to be an “entry-level career ladder program” for recent college graduates to gain work experience and the job skills needed to seek a full-time position within Metro or another company. Establishes a pipeline for recent college graduates to gain entry-level or journey-level work experience as a Transportation Associate I. Recent college graduates will expose to work assignments, projects and technical skills related to their college degree. This program intends to identify a “pool of proven performers” who are eligible to “fill new roles” that fit job skills developed over time within Metro or at another company. Also, the ELTP offers recent college graduates an opportunity to become the next generation of Metro’s workforce.

For more information and to apply for the program, click [here].

ASPA’s SEIGOV (Section on Ethics and Integrity in Governance) INVITES SUBMISSIONS FOR ITS ANNUAL STUDENT PAPER COMPETITION
Submissions Due December 15th

Students in public affairs and public policy graduate programs are invited to submit their research papers authored in 2015 or 2016 on any public and administrative ethics topic, including corruption, integrity, social equity, corporate responsibility, and politics. Faculty members may also nominate student paper(s) for submission. Conference papers, term papers, and journal manuscripts are eligible for submission (literature reviews, case studies, and review essays are ineligible for entry). Please note that only one submission per student is allowed, and the paper should be written entirely by the student and not co-authored. The paper should not exceed 20 pages in length, including citations and references, and should follow APA format. Each paper will be peer-reviewed and judged for its quality, methodology, importance, and policy implications along with clarity in writing.

The winning submission will be awarded a prize of $250 and the author will receive a certificate of recognition from SEIGOV at the 2017 ASPA Conference, and will be announced in media publications. The section will provide financial support for the winner to attend ASPA’s national conference in Atlanta, GA, March 17 -21, 2017.

Papers (and questions regarding the competition) should be submitted to Prof.
United States Department of Transportation
2017 Summer Transportation
Internship Program for Diverse Groups (STIPDG)
Applications Due January 20, 2017

The Summer Transportation Internship Program for Diverse Groups (STIPDG) provides a unique opportunity to gain valuable professional experience and skills that will complement your academic pursuits. This hands-on program is designed to mentor and cultivate tomorrow's leaders, strengthen their understanding of the transportation industry and prepare them for future public service opportunities.

The STIPDG is a paid internship program open to all qualified candidates without regard to their race, gender, color, religion, sexual orientation, national origin, age, physical or mental disability, veteran status, or any other characteristic prohibited by state or local law.

Internship Period: June 5th - August 11th, 2017
For more information and to submit an application, click here.

Young Researchers Seminar 2017 - Call for Abstracts/Papers
May 16th - 18th 2017 in Berlin, Germany

Young Researchers Seminar is an event organized every two years in a different European country. The common vision for the Young Researchers Seminar is the preparation of a new generation of transport scientists and science-based professionals in the area of transport.

Young researchers are cordially invited to submit their abstracts. The deadline for submitting abstracts to the YRS2017 is extended to September 30th. They should preferably be postdoc (less than 5 years after PhD) and involved in one of the below-listed research domains:

- Transport economics, policy, and transport behavior
- Transport sustainability and environment
Transport safety
Intelligent transport systems (ITS) & traffic management
Transport civil and road engineering

For more information and to submit abstracts/papers, click here.
