I am METRANS student graphic designer, Yang Deng, a masters student at USC majoring in transportation engineering, and am honored to welcome you to this issue. This week, you will read about many opportunities for involvement – field trips, conference sponsorships, and more. We are always looking for new sources of knowledge, articles and content, and encourage you to reach out to us with your ideas. Please contact me, any of the student assistants, or METRANS Associate Director Victoria Deguzman at victoriv@usc.edu to join the effort!

Free TRB Webinar
Uses of Social Media During an Airport Emergency
January 18, 2018, 11:00 am to 12:00 pm

TRB will conduct a webinar on Thursday, January 18, 2018 that features research from the Airport Cooperative Research Program (ACRP)'s Synthesis 82: Uses of Social Media to Inform Operational Response and Recovery During an Airport Emergency.

This webinar will serve as an introduction to using social media platforms at airports to enhance situational awareness and resource allocation decisions during emergency situations. The presenters will describe how social media has changed the speed of communications that an airport may expect to experience, and how airports may affect the flow of information that may assist with making critical decisions.

Transportation Technology Tournament
Applications Due February 15, 2018

The National Operations Center of Excellence (NOCoE) and the U.S. DOT ITS JPO PCB program announce a competition for students to work directly with state and local DOTs to solve real-world transportation problems utilizing ITS and TSMO solutions.

Student teams will assemble and work with a local or state agency to define a problem or challenge in their region, or choose to address one of the sample problems outlined below. After submitting an initial contest application identify the team and the problem or challenge, students will work with academic advisors to learn about potential ITS and TSMO solutions via online training programs outlined below. Teams will then utilize their experience, education, and new coursework to develop a solution or suite of solutions to directly address the originally defined problem. Students will submit their solutions via a proposal. Finalist teams will develop a presentation and then will be flown to the Institute of Transportation Engineers (ITE) 2018 Annual Meeting in Minneapolis to give a live presentation in front of a panel of judges made up of leaders in the ITS and TSMO community.

Please feel free to contact Adam Hopps at ahopps@transportationops.org or phone (202-680-0091) with any questions in advance of submission.
