METRANS on the Move: Our Weekly Newsletter for Students

It is my privilege to welcome you to this week's issue of METRANS On the Move, a student-run weekly transportation newsletter. I am METRANS Research Editor Hue-Tam Jamme, USC PhD student in Urban Planning and Development. This week we feature USC Master student Elizabeth Warren and news on congestion pricing and ride sharing program. We are always looking for new sources of knowledge, articles and content, and encourage you to reach out to us with your ideas. Please contact me, any of the student assistants, or METRANS Associate Director Victoria Deguzman at victoriv@usc.edu to join the effort!

In-depth with Master of Global Public Policy Student Elizabeth Warren
By Griffin Gonzales, Graduate Supply Chain Management student, California State University, Long Beach

Returning from a recent trip to Hong Kong, Elizabeth Warren recently caught up with METRANS to discuss her passion for logistics and transportation at the Ports of Los Angeles and Long Beach, her experience as a graduate student at USC and her affinity to be in the midst of a technological revolution that the port industry is currently experiencing.

The Four-Letter Word Changing Daily Commutes
Paying an extra toll for rush hour driving isn’t a popular idea with many motorists. But its time seems to have come. The 10-mile stretch of Interstate 66 in Northern Virginia that takes drivers from the Washington Beltway into the nation’s capital was off limits to nearly everyone driving alone during rush hour reserving the route for electric cars and vehicles carrying multiple passengers and single-occupancy cars use the road, but at a price. Is this policy to stay? Read more here.

Chicago City Council Launches Test Drive of Car2Go ‘Free-Floating’ Car-sharing Program
Chicagoans who don’t own their own cars will soon have another transportation option, courtesy of the sharing economy. The City Council on Wednesday gave Car2Go, the largest one-way car sharing service in North America, the green light to launch a 500-car experiment on the streets of Chicago. The test was authorized to begin May 1, but Car2Go has yet to announce a start date. Read more here.

Free TRB Webinar
Addressing Significant Weather Impacts on Airports
Thursday, April 5, 2018, 11:00 am to 12:30 pm Pacific Time

TRB will conduct a webinar on Thursday, April 5, 2018, from 11:00 AM to 12:30 PM PT that features research from the Airport Cooperative Research Program (ACRP)'s Report 160: Addressing Significant Weather Impacts on Airports.

This research provides a web toolkit that raises airport operator awareness about vulnerabilities caused by significant weather events. The webinar will showcase and demonstrate the Airport Weather Advanced REadiness (AWARE) toolkit, which helps airports identify potential severe weather threats and assess whether they are prepared for them. This toolkit focuses on events that are "rare but plausible"; that is, events that may have happened in the distant past, or in adjacent geographic areas, but are not common event types at the airport itself, and therefore may not be in the forefront of the airport managers’ minds.

This webinar is TRB's Airport Cooperative Research Program.

Webinar Presenters
Beth Rodehorst, ICF
Cassie Bhat, ICF
Dave Cunningham, Denver International Airport

This webinar is approved by the American Institute of Certified Planners for 1.5 Certification Maintenance Credits.

Registration questions? Contact Reggie Gillum at RGillum@nas.edu.

**10th National Aviation System Planning Symposium**

**21st Century Challenges in Aviation System Planning**

**May 20 - 22, 2018**

The Lakefront Anchorage, 4800 Spenard Road, Anchorage, Alaska 99517

**Call for Posters**

The National Aviation System Planning Symposium (NASPS) is a triennial event organized with the goal of assessing the state of the art in system planning, addressing current issues confronting the airport and aviation industry, and identifying research needs to inform the future research agenda for aviation system planning. The symposium brings together system planning consultants, airport and aviation system planners and managers, air carrier and other aviation industry representatives, Federal and state transportation officials, and others interested in the future development of the aviation system and its role in the larger multi-modal transportation system for two days of meetings, presentations, and networking. The NASPS provides a unique opportunity to gather people who are actively involved in planning the aviation system to focus on its future development and improvement for a sustainable, healthy future. The symposium is cosponsored by the Transportation Research Board committees on Aviation System Planning and Intergovernmental Relations in Aviation.

Participation grants are available to provide financial assistance to enable suitably qualified graduate students to attend the 10th National Aviation System Planning Symposium. Learn more about eligibility and other requirements.
