We are bringing you this republished edition of Wednesday's newsletter to bring your attention to a special event: Please see the “Understanding How Women Travel” event below!

Readers, welcome to this week’s issue of METRANS on the Move! This newsletter is a team effort to foster knowledge and opportunities related to transportation. If you have suggestions for content – events, scholarships, jobs, and more – that you’d like to see included, just reach out to our Publisher, Danielle Dirksen, at ddirksen@usc.edu. Enjoy this week’s issue, and click the button below to subscribe!

Meet Adylbek Abdykalikov- METRANS Student Event Lead And International student From Kazakhstan by Kavina Patel

Adylbek Abdykalikov leads the METRANS Student Event Team and is a second-year USC Price School Master of International Public Policy and Management (IPPAM) student from Kazakhstan. Abdykalikov earned his Bachelor's degree in International Relations at the Kazakh State University in 2012. He then began working for the Ministry of Transport and Communication at the Department of International Cooperation in Kazakhstan.

Robot Cars Of The Future Can’t Fix Traffic, Pollution, Sprawl

Congress is looking to regulate the fast-evolving driverless-car industry, but a new study shows that the vehicles would lead to more urban traffic congestion and would draw riders away from transit — making them a bad deal for cities.

LAX’s New System For Uber, Lyft And Taxi Pickups Is Plagued With Long Waits

Los Angeles International Airport debuted its new system for Uber, Lyft and taxi pickups last week. Then: chaos. Traffic bottlenecks have caused long wait times and deep frustration for both drivers.
and passengers.

Blast From The Past Series - Streetsblog USA, 2017:
What American Commuter Rail Can Learn From Paris

For years, transit advocates in New York and other U.S. cities with legacy rail systems have advocated for modernizing commuter rail to run more like a subway, often using Paris as an example. For good reason: Data suggests Parisian regional rail lines are well-used throughout the entire day.

For Researchers

Call for Papers: World Symposium on Transport and Land Use Research 2020
Submissions Due Friday, November 15

We are pleased to announce that the 2020 World Symposium on Transport and Land Use Research (WSTLUR) will be held in Portland, Oregon, USA, July 13-16, 2020. We seek original, full-length submissions on the designated themes, which include affordable housing and transport, Latin America, public transport, new mobilities, and access for all. Theme leaders will be in charge of the paper review and selection process. Questions about the specific themes should be directed to theme leaders. WSTLUR membership is not required to submit a paper.

Each conference registrant may be a co-author on multiple papers, but there is a limit of one presentation per registrant. Sessions will be developed from high-quality papers received and authors of a select number of papers will be invited, based upon their conference paper reviews, to resubmit their papers for a second round of reviews for publication in the Journal of Transport and Land Use.

Click below for more theme information and to submit.

EPA Research Opportunity: Biofuel Climate Change Model Validation Research
Apply Immediately

Two research opportunities are currently available at the U.S. Environmental Protection Agency’s (EPA) Office of Transportation and Air Quality (OTAQ). This appointment may be served at EPA Headquarters in Washington, DC or at the EPA's National Vehicle and Fuel Emissions Laboratory (NVFEL) in Ann Arbor, Michigan.

The project entails research on validation of transportation climate modeling with a focus on biofuels. The project will involve research on model evaluation techniques and on developing tools to automate comparison of model outputs with data and projections from other sources to improve evaluation and communication of EPA's modeling.

Under the guidance of a mentor, the participant will review an integrated assessment model that EPA is using for transportation/biofuel climate change analysis and review techniques to validate the model through comparison of the model’s output with other data sources and projections. The participant will also research methods for automating future model validation. The participant will use an open source programming language (e.g., R, Python) to compare model outputs with other well-established sources of data on transportation fuels and agricultural commodities (e.g., prices, production, land use).

Click below for additional information and to apply.

Get Involved
Seminar: Health Co-benefits of Active Transportation for Greenhouse Gas Mitigation
Friday, November 8, 2019 from 1:40 to 3 pm Pacific
1605 Tilia, Room 1103, West Village, UC Davis or Online

The Integrated Transport and Health Impacts Model (ITHIM) is a scenario-based risk assessment tool that quantifies the health benefits and harms of physically active travel (walking and cycling), road traffic injuries, and fine particulate air pollution in urban transportation systems.

Speaker Neil Maizlish, PhD, MPH is an epidemiologist with over 30 years of experience in research methods, statistics, and health informatics in government, academia, unions, and health care organizations. He currently is a Visiting Researcher at the University of California, Davis, where he models the health co-benefits of active transport as a greenhouse gas mitigation strategy. He is also a senior Research Scientist at the Public Health Institute, focusing on the development of healthy community indicators.

Please email Zhanibek Baktygali at baktygal@usc.edu to RSVP.

Fall 2019 Speaker/Webinar Series: Is Neighborhood Change Leading to Falling Transit Ridership?
Wednesday, November 13, 2019 at 12 pm Pacific
University of Southern California and by Webinar

Join METRANS and PSR for a luncheon with Michael Manville, Associate Professor of Urban Planning at UCLA Luskin School of Public Affairs. Participants will gain professional insights on falling transit ridership in Southern California as Professor Manville presents preliminary study results on ridership fluctuation. RSVP is required. Please click below to view the flyer.

LA Metro Aging and Disability Transportation Forum
Thursday, November 14, 2019 from 9 am to 2 pm Pacific
Union Station Ticket Concourse
800 North Alameda Street
Los Angeles, CA 90012

LA Metro, Access Services and the Aging and Disability Transportation Network invite you to join Metro Board Chair James T. Butts, Supervisor Sheila Kuehl and Chief Executive Officer Phillip A. Washington for Metro’s First Aging and Disability Transportation Forum. Metro is taking a leading role in expanding accessibility in our public transit system, and delivering more mobility options with safe and equitable service to the residents of Los Angeles County. Speakers at the Forum will highlight Metro’s recent accomplishments and lay out the vision and priorities for accessible transportation in the coming years.

The 2019 Aging and Disability Transportation Report summarizes demographic trends, and provides an overview of Metro’s and Access Services’ current programs, services, pilot projects and studies that are underway to enhance Los Angeles County transportation options for older adults and people with disabilities. Forum participants will have an opportunity to comment and share ideas on the report during interactive feedback sessions.

Please email Zhanibek Baktygali at baktygal@usc.edu to RSVP.

NEW EVENT - Fall 2019 Speaker/Webinar Series: Understanding How Women Travel
Friday, November 15, 2019 at 12 pm Pacific
University of Southern California

Join METRANS and PSR for a luncheon with Judith McCourt, Dr. Evelyn Blumenberg, and Emily Finkel. These women are all part of the team behind LA County Metro’s (Metro) “Understanding How Women Travel” study and report. Historically, Metro has followed a “gender-neutral” approach to service planning, without considering the unique needs and preferences of women, who comprise over 50% of their ridership. In 2018, Metro launched a first-of-its-kind study to answer these questions, with the aim to improve women’s safety and comfort on transit and to attract and retain women riders to the Metro system. Please click below for more info on the event and the panel.

Transportation Research Board Annual Meeting: Reduced Student Costs
Prices Increase: after Saturday, November 30, 2019
Conference: January 12-16, 2020
Washington, D.C.

The Transportation Research Board (TRB) 99th Annual Meeting will be held January 12–16, 2020, at the Walter E. Washington Convention Center, in Washington, D.C. The information-packed program is expected to attract more than 13,000 transportation professionals from around the world.

The meeting program will cover all transportation modes, with more than 5,000 presentations in nearly 800 sessions and workshops, addressing topics of interest to policy makers, administrators, practitioners, researchers, and representatives of government, industry, and academic institutions. A number of sessions and workshops will focus on the spotlight theme for the 2020 meeting: A Century of Progress: Foundation for the Future.
Student Transportation Consulting Volunteer Opportunity
University of Southern California

Please see the following on behalf of USC undergraduate Reanne Aquinde: Reanne is looking to organize student members of the USC Chapter of the Institute of Industrial and Systems Engineers (IISE) to undertake transportation related problems in the field. Interested students need not already be a part of IISE but should attend or live near USC. This opportunity is intended to organize a small, voluntary student team which will then tackle a real world project that students can work on to gain practical experience. Email Reanne for more information at raquinde@usc.edu

Institute of Transportation Engineers Membership
University of Southern California

Please see the following on behalf of USC professor and mentor, Eric Shen: "You can join ITE as a student member for free (the first year) as an undergraduate and for $30/year as a graduate student.

The ITE-USC Student Chapter will subsidize undergraduates’ paying membership fee after the first year AND graduate students’ membership fee - all you have to do is to pay or renew your student membership then forward the receipt to me for reimbursement (while you are still a full-time USC student). For an added bonus, you may join WTS International as a student member. If you’ve signed up for ITE student member, the ITE-USC Student Chapter will also pay for your annual WTS student membership fee ($30) as long as you are a full-time USC student and exhibiting strong interest in transportation. WTS also welcome men joining the organization."

Email Professor Shen for more information at shen.eric@gmail.com.
